CORELEMENTS by DECOR

tailoring your space,
FOR YOUR LIFESTYLE

Kitchen design is no longer just about the door style, colour or futuristic gadgets - it's also about tailoring your space to fit your needs.

FULL EXTENSION DRAWERS

Pairing organization with full extension drawers gives you a quick overview of your contents.

DRAWERS INSTEAD OF DOORS

When it comes to base cabinets, consider drawers over doors. They provide easy access to interiors along with being ergonomic.

ORGANIZED INTERIORS

Convenient and practical storage to keep everything in its place.

times change - AND SO DO KITCHEN STANDARDS

Industry standard counter heights don't work for everybody, because there's no such thing as industry standard humans!

CORELEMENTS by DECOR

WORKING SURFACE HEIGHT

Studies show that correct working surface height improves your posture, decreases neck and back pain and can even increase energy!

DYNAMIC SPACE

Good work flow, ample storage and quality of motion should be as important as the colours and door styles you choose for your space.

CONSUMABLES

Food is kept in the consumables zone. When planning this zone it's important to ensure that everything's within easy reach.

NON-CONSUMABLES

The non-consumables zone is designed for flatware, dishes, glasses and plastic containers. That's why it's a good idea to have the dishwasher close by.

CLEANING

This zone houses the dishwasher and sink. Cleaning utensils and cleaning agents should be kept here so that everything is close at hand.

PREPARATION

All the items needed for preparing food are kept in this zone. Drawers ensure that they are within easy reach.

COOKING

There should be enough space for pots, pans, lids, and cooking utensils close to the cooktop.

helping you GET SORTED

Be intentional with your storage - you can never have too much! From where you put your mixer to those oversized olive oil bottles - consider what you have, what you want and what works for you.

URBAN

stain collection

TRENDY & SOPHISTICATED

There's something about that metropolis mood, a mix of sophisticated and relaxed... a mood brought on by the Urban Collection by Decor.

This is a place where old meets new, creating a contemporary charm. Natural, warm, velvety browns creating a sense of calm in the uptown rush. As the sun rises above the city, the skyline begins turning a champagne pink and the faded greys of the high-rises towering above you start to glow.

All stain samples shown on White Rift Oak.
